

SHERAKHAN

Luxury motor yacht SHERAKHAN is truly one of the most impressive charter super yachts re-launched in recent times. Her entire superstructure has been rebuilt from a bare hull. M/Y SHERAKHAN'S luxury interior décor and layout works very well to give a feeling of grandeur and comfort. The added extras such as the glass bottom Jacuzzi and the themed cabins make this yacht one of the very best available for charter. She is available in the Caribbean and Mediterranean Seas and also cruises further a field offering some once in a life time adventure charters. M/Y SHERRAKAN is presently seriously considering cruising to Patagonia for the Antarctic winter.

M/Y SHERAKHAN is the culmination of a dream for her owner. Whether it be the luxury dining room for 22 guests with its massive 7m Atrium bathed in natural light filtered down through the glass bottomed Jacuzzi. (Seating 18) or the Joy of standing in the lookout house perched above the sundeck a massive 20m above the water line. Suites range from 30-50 square meters and are impressive for their decor, style and of Course sheer size.

Main Deck:

Once you set foot on the gangway, you will be surprised by the beautiful details, the enormous deck areas, astonishing woodwork and the incredible choice of outside furniture! We are sure you have never experienced a view as marvelous as the one from the look-out house. The Jacuzzi is very big (18 people) and of course we have a complete B.B.Q. area

When you finally come inside, you will be surprised by the beam of the yacht. The main saloon is about 20 meters long and 9 meters wide. The style is cozy and, what we think is the most important, homely. Every single guest on MY Sherakhan must immediately have the feeling that this is their home and can relax the way they want!

The main saloon is visually divided into two areas; On one side we find the dining area; with a beautiful table, where 22 people can be seated. On both sides of the dining table there are 2 impressive stairs which will lead you to the owner's deck. When you sit at the dining table and look up, you will be impressed by the atrium. You can look completely to the roof of the yacht where the Jacuzzi with glass bottom is situated. The enormous chandelier is of course specially designed for this area of 7 meters of height.

The other side of the saloon is furnished to relax. Nice cozy couches, homely armchairs, enormous vases, a fireplace, a flat screen television, a bar where you can sit down to enjoy your drinks and of course a little podium with a white grand piano. Although the area is big, you will never have the chance to feel “lost”. From this area you have a nice view on the aft deck where the outside dining table is situated.

When you walk through this area and pass the dining table, you will enter the vestibule. Here you can choose to go down to the beauty saloon and the suites on the accommodation deck or even go to the fitness-massage, sauna and Jacuzzi on the lower deck. When you go straight on from the vestibule, you will first meet the ladies room on one side and on the other side the library. After passing a door, you will come to the corridor on which at either side 2 spacious suites are situated. All four of them have sizes like 38 square meters with an en-suite bathroom which have baths and showers as well. (The size of 38 m² is only the suite; it does not include the bathroom!)

The suites:

Our feeling about a big yacht is that also the suites must be large! When guests want to have some privacy, not only during the night..., they must experience all the luxury of a 5 star accommodation and of course be surrounded by a nice furnished and decorated ambiance.

All the double beds are king size. All suites are equipped with a television, DVD, stereo, mini bar, safe, air-conditioning/ heating, a vanity table/desk, a computer point, relaxing chairs, saloon table, a very spacious walk-in closet, bathroom with toilet, bidet, bath (Jacuzzi), double basin and shower. On the art impression you have some idea of the style which will be fitted in these areas. The way the woodwork is done, is

astounding! Nice and with unexpected details.....

Accommodation deck:

On the accommodation deck, you will find 4 suites. The smallest will be 34 m² and the biggest 37,3 m². They will be fitted just like all the others. Of course there will be differences in colors and decorations, but not in luxury! You also will find a children's themed cabin, (Only designed for children! So no access for people above the age of 13! Little people also have the right to have their own party.....) and a security cabin. These cabins are connected with the 2 suites next door, but can also be used completely separately.

The last area of importance on this deck is the beauty saloon. The beauty saloon is also fully equipped hair- and nail studio. So the guests can be pampered as much as they want!

Lower deck:

When you walk down the stairs, at the end of the corridor on the accommodation deck, you will enter a world of body pleasure! First take a drink at the bar to get used to the idea of exercise, then some fitness on the most modern equipment, followed by a well-deserved massage, going into the sauna to give your body the most precious rest and end up in the Jacuzzi to cool down! What more can a person wish for.....?

Apart from all the equipment available here, the area in which this is situated is a feast for the eyes. Because of its location, completely in the front of the ship, below decks, the area is build like an American loft. Something like this hasn't been shown before, fantastic mosaics will amaze you.

Owners deck:

We leave this deck and follow our “tour” to the saloon on the owners deck. The one you can reach from the vestibule on the main deck or with the stairs besides the dining table. When you come by the 2 enormous stairs, your attention will be attracted by the spectacular view down on the dining table. There is a vacant space of 6 meters long and 3 meters wide! In this way, the areas are not completely separated but in a creative way connected with each other. The saloon is further furnished with exclusive and comfortable chairs, a bar with an integrated piano and a dance floor for the people who cannot control their feet! During the day time, this area will be quite popular! It is great for reading and relaxing when the sun is too hot or having a drink or playing some chess. During the night this saloon will be perfect for having swinging cocktails before dinner. In the meantime the crew can set a wonderful decorated table and the guests will be surprised when they walk down the stairs to enjoy their dinner!

Besides the saloon, this deck contains 2 suites of 31 m² and 1 Master Cabin of almost 51 m²! This deck is completely outfitted for the owner with a huge study. Like the name reveals, this will be a Masterpiece! Located completely in the front of the ship, with an amazing view over the sea, this cabin has even its own terrace! The major Jacuzzi will be in the middle of the room, apart from the bathroom. The special effect of this cabin must be seen to be believed!

The outer deck on the owners deck will have comfortable chairs, footstools and even table lamps for the people who want be outside at night and enjoy a good book or just want to sit in silence and enjoy the stars.....
On every outer deck there will be music, when wanted.

Wheelhouse-deck:

The last deck is the wheelhouse deck. You can reach this deck from the corridor on the owners deck or from outside. On this deck the wheelhouse is situated, but the most important of all.....the Jacuzzi, loads of deck chairs, a bar, a B.B.Q. area, shade for the burnt ones and of course the look-out house!!!! Between the 2 funnels, we created a real look-out house. Once you are up there, you will be taken by surprise!!! The height of this location will be 20 meters above the waterline, so you

can easily imagine what sort of view you can have up there! A 360° view for the star watchers; this is the ultimate spot....
